## ARTILLERY DETACHMENT VISITS PARIS ON RECRUITING SERVICE

In charge of Capt. John Townsend, Jr., a detachment of six officers and fifty men, with their full artillery equipment, arrived in Paris, Saturday afternoon, to remain three days on a recruiting expedition. The detachment has been making a tour of the Central Kentucky counties on the same mission, and has been very successful in securing enlistments for their branch of the service.

The men, under command of their officers, marched to the county rock quarry, in East Paris, where they pitched their tents for the three-days' stay. They were unable to give a program of exercises on Saturday afternoon on account of the rain, which made the ground sloppy and unfit for the purpose. On Sunday afternoon, in the presence of a large crowd of visitors the men gave an exhibition of artillery maneuvers and drills, together with handling and firing the 75 millimeter guns, two of which form part of their armament. The guns were loaded and fired with precision, affording the visitors a good idea of what their work must have been in action.

The guns were parked on the court house square yesterday in charge of a detail who showed their workings to large numbers of visitors throughout the day. They will remain there during the three days of the detachment's visit, when they will be open for inspection at all times.

A delegation of twenty-five members of P. I. McCarthy Council, Knights of Columbus, of this city visited the camp Sunday afternoon, and presented the artillerymen with cigarettes and chocolates, and on Sunday night sent them a five-gallon freezer of ice-cream. They also extended the men a cordial invitation to visit their club rooms, make themselves at home and take advantage of the club privileges.

The object of the detachment's visit here is to stimulate interest in enlistments in the artillery branch of the service, which is open to all young men of good character who possess the physical requirements.

As a special inducement for enlistment those who enlist in the service from Paris will be taken over the remaining recruiting route, which includes Cynthiana, Carlisle, Maysville and other Northern Kentucky towns.

The members of the detachment gave another exhibition drill on the camp grounds yesterday afternoon, when they went through all the maneuvers used in the regular warfare and put the guns through their paces. A sham battle in which twenty-five members to a side were engaged, was also staged for the benefit of the visitors to the camp.

Yesterday morning two members of the artillery staged an interesting bout with gloves that had not been included in the regular program. One of the men with a grievance against another concluded to settle the matter with boxing gloves. They repaired to a convenient place for the purpose, where, in the presence of a number of spectators they put up a fine exhibition of the manly art. The aggressor in the affair was the sufferer to the extent of getting a good taste of the prowess of his adversary and his skill and science with the gloves, an exercise which is encouraged by Uncle Sam as a means of physical development for the boys.

## HOME GROWN MELONS COMING TO MARKET.

Two of the most toothsome of earth's products, home-grown watermelons and canteloupes, are making their welcome appearance on the market in large quantities. Two large automobile trucks loaded with freshly-plucked, juicy canteloupes, were sold out in a short time on the court house square Saturday at prices ranging from 10 cents up to 50 cents for choice. Watermelons, rich, red and ripe, have been selling for fifty cents to seventy-five cents each, crowding out of the market their imported competitors, which have been retailing at one dollar and \$1.50 each for some time. The demand for the home-grown melons far exceeds the present supply.

## MAKING LIFE MISERABLE FOR FOOD PROFITEERS!

BOSTON, Aug. 18.—United States Deputy Marshal Bancroft accompanied by two agents of the Department of Justice, seized 16,588 bags of wheat flour from the storehouse of the Market Warehouse Company in South Boston.

WASHINGTON, Aug. 18.—Zone postal rates insofar as they would apply to shipments of surplus army food sale of which begins Monday, were, in effect, suspended by the Postoffice Department.

WASHINGTON, Aug. 18.—General increases of about 80 per cent. in the cost of living during the period from December, 1914, to June, 1919, were shown in tables made public by the Department of Labor.

The tables were based on investigations in various representative cities over the country. In every instance, greatest increases were recorded in the prices of clothing and house furnishings.

NEW YORK, Aug. 18.—The sugar shortage in this country soon will be relieved, according to the United States Sugar Equalization Board, which announced that it had more than 100 ships engaged in bringing sugar from Cuba. Some of the ships already have arrived, others are expected soon and about 50 are loading in Cuban ports.

Detroit, Aug. 18.—Second raid on food supplies stored in the Detroit Refrigerating Company's plant here, agents of the Department of Justice seized 7,400 eggs and approximately 300,000 pounds of butter.

ST. LOUIS, Aug. 18.—Seizure of 40,026 cases of eggs, 16,569,360 eggs in all, held for seven owners of the Mound City Ice and Cold Storage Company, was made here on a libel warrant by the United States District Attorney. The names of the holders of the eggs were not announced.

DETROIT, MICH., Aug. 18.—A libel was filed here under the Lever Act for the seizure of nearly 10,000,000 eggs held in storage by the Rock Island Butter Company and A. F. Theobald & Company, Detroit, United States District Attorney Kinnane announced.

SAN DIEGO, CAL., Aug. 18.—Seizing of food stocks held in cold storage was commenced here by Deputy United States Marshal W. C. Carse under libel warrants issued by the Federal Court in Los Angeles.

## LIGHTNING'S CAPERS

A large straw stack on the farm of Mr. Lou Taylor, near Paris, was struck by lightning during a recent storm and destroyed by the resulting flames. On a neighboring farm three cows, which had taken shelter under a tree, were killed when the tree was struck by lightning.

During a rain and electrical storm which passed over the county Saturday afternoon the tobacco, stock and feed barn of Jonathan Burris, near Little Rock, was struck by lightning and destroyed. The barn was partly covered by insurance. The contents, consisting of two thousand bushels of grass seed worth \$1.60 a bushel, and fifteen tons of baled alfalfa were not insured and were lost.

The rain was general over the county, according to telephone reports, and revived vegetation and crops suffering greatly from the effects of the drought.

At Carlisle a horse belonging to Robert Storey, and a valuable mare belonging to Charles Linville, were struck by lightning and killed during the storm of Saturday. The lightning struck a telephone wire leading into the home of Mr. Linville, tore the telephone from the wall and otherwise damaged the room.

So many English women have become confirmed smokers that in recent months railway employees have hesitated to enforce the rules against smoking in certain carriages and it has come to be accepted that if the women passengers do not object every compartment becomes a "smoking car."

## HIGH PRICES FOR CORN

Twelve dollars per barrel for corn in wagonload lots was a price recently obtained on the local market. One four-horse-wagonload of the cereal brought \$141. Corn sold for \$1.00 per bushel twenty-five years ago, and in that fall was delivered to commission merchants at seventy-five cents per barrel.

## PATROLMAN JUDY CATCHES COLOR SNEAK THIEF.

It's getting to be a hard matter for offenders against the laws to get away from the Paris police. This fact is now brought vividly to the attention of Gilbert Huffman, colored, who some time ago, made away with the sum of \$80 belonging to Logan Ayers, also colored.

Huffman had been engaged as a bushelman by Ayers, who conducts a clothes cleaning establishment in the second story of the building occupied as a barber shop by his father, John Ayers. Logan Ayers went home one night, carelessly leaving the sum of \$80 in currency in a pocket of the trousers he had just changed. When he returned in a hurry to get the money it had disappeared. So had Huffman. Patrolman Judy was detailed on the case and located Huffman in the vicinity of the Tenth street passenger station of the Louisville & Nashville. Huffman had bought a ticket for Cincinnati and was waiting for the train. Seeing Patrolman Judy he made a dash for liberty, making good his escape through a cornfield.

Yesterday Patrolman Judy received a tip that Huffman had returned to Paris. Going to the Huffman home he asked for the boy. Being told that he was not in the house, the officer determined to see for himself. Sounds in the attic of the house led him in that direction. Suspecting that his man had taken refuge there he called for him to come down. There being no response, Patrolman Judy fired a shot through the ceiling, which had the effect of bringing Huffman down in a hurry. He confessed to taking the money, and was taken to the county jail to await his trial.

## JACKSON MAN WINS IN THIRD DISTRICT.

By a majority of 326 votes E. C. Kash, of Jackson, won the Republican nomination for Railroad Commissioner in the Third district, of which Bourbon county is a part, according to complete returns which have reached the office of Secretary of State Lewis. Kash received 12,641 votes, J. B. Eversole, of Hazard, 12,605, and Clay Cisco, of Mt. Sterling, 1,248. Cisco had withdrawn from the race, but received a large complimentary vote.

The nomination in this race is equivalent to an election as the Democrats failed to put up a candidate for Railroad Commissioner in the district.

Kentucky has more cows and produces more dairy products than she did a few years ago. The records at the Experiment Station show that three hundred and sixty persons have taken out licenses to test milk and cream at skimming and receiving stations scattered over the State.

## STATE ELECTION BOARD ISSUES NOMINATION CERTIFICATES

The Board of Election Commissioners met at Frankfort Saturday, and elected T. W. Pennington, Democrat, secretary. Certificates of nomination were given to W. H. Shanks, Lieut. Governor; Mat S. Cohen, Secretary of State; John A. Goodman, Clerk of the Court of Appeals, and Frank Burns, Railroad Commissioner in the Third district.

Nomination certificates were withheld from the following candidates because they failed to file their post-election expense accounts with the board: James D. Black, Governor; Frank E. Daugherty, Attorney General; L. E. Foster, Superintendent of Public Instruction; H. M. Bosworth, Auditor; John W. Newman, Commissioner of Agriculture.

The committee will meet again August 28 to select County Election Commissioners for the November election and to give certificates of nomination to other candidates provided they have filed their expense accounts by that time.

## DOKEY'S TO VISIT PARIS.

About forty members of the Lexington "Dokeys" lodge, a side degree of the Knights of Pythias, will visit Rathbone Lodge, K. of P., in this city Thursday night. The visit was scheduled for several days ago, but circumstances prevented the "Dokeys" coming. An interesting session is promised all who attend.

The Knights of Pythias campaign to raise \$100,000 for the endowment of the Pythian Widows' and Orphans' Home has been started. The quota of Rathbone Lodge No. 12, of Paris, has been placed at \$2,860. Every member of the order is expected to make a pledge to this cause, to be paid in four semi-annual payments.

## STATE FOOD COMMISSION SUBMITS RECOMMENDATION

At a meeting held in Louisville, Friday, the State food commissioners appointed by Governor Black recommended regulation of packing houses and storage plants; the keeping of perishable foods in cold storage for not more than three months; the appointment of a fair price committee in every county in Kentucky to bring any evidence they may obtain of violations into Federal court, and the widest publicity on price lists.

Federal procedures against persons and firms accused of having violated the food control law were instituted when five men were taken into custody by agents of the Department of Justice on warrants issued by United States District Attorney Perry B. Miller.

Those taken into custody are Howell Thomas, Louisville manager for Armour & Company; August Boldt, Louisville manager of the Booth Fisheries Company; Henry Spatz, butcher, and Guy A. and Harry B. Taylor, of the firm of Taylor Bros., fish dealers.

Thomas, the Armour manager, was taken into custody while appearing as a speaker at a session of the Kentucky Food Commission, where he had just made an address pledging co-operation in bringing about a reduction of prices.

By affidavits that accompanied the warrants for the Armour manager, it is charged that 11,400 pig ears, 180 pounds of pork loins and 145 pounds of spare ribs were permitted to deteriorate and be wasted. Other affidavits charge the fish companies with wastage of 30,000 pounds of fish. Spatz is charged with allowing 5,213 pounds of veal to become unfit for consumption.

## GOVERNMENT FORCING FOOD PRICES DOWNWARD.

The campaign being waged by the Federal government to lower the cost of living is a most energetic one, and one that is likely to secure lasting and startling results. The people of each community will help the government if material aid is to be expected.

The newspapers tell of the conviction of a grocer in the East with a fine of \$500 for selling sugar at fifteen cents a pound. If the people in that town fail to look sharp the convicted grocer will get it back along some other line. The publication of wholesale prices will do much to focus attention upon the profits of the retailers. The government intends to use a license system for wholesalers, limiting the profit per unit. If the citizens generally will remain alert, report hoarding and note the prices they are charged, much can be accomplished.

There has been little or no profiteering here, as far as THE NEWS has been able to ascertain, but it will be well for our people to be on the lookout and ready to report any instance of such, so that the matter may be reported to the proper authorities.

## KNIGHTS ENTERTAIN THE LITTLEJOHN COMPANY.

A. J. Lovely Company No. 34, Uniform Rank Knights of Pythias, were hosts Sunday night at an informal dinner given to the members of the Littlejohn Carnival Co., which played a week's engagement here under the auspices of the Knights.

The tables were spread in one of the big tents on the carnival grounds and about one hundred guests sat down to an appetizing luncheon prepared under the supervision of W. W. Dudley, Captain of the A. J. Lovely Co., and ladies of the order. Short talks were made by several members of the order and by those of the Carnival Company, and when the command, "Fall to!" was given the guests did so with a right hearty good will, disposing of the viands in short order. The event was one greatly enjoyed by all.

The Littlejohn Company remained over in Paris yesterday and gave a show on the grounds last night. Their engagement was a successful one in every respect.

## PARIS HEN HELPS TO REDUCE H. C. OF L.

Mrs. Henry Grosche, of Paris, is the proud possessor of a hen which she declares is doing her utmost to reduce the high cost of living. Mrs. Grosche bought a young pullet some weeks ago, intending to have it killed and served for dinner that day. The bird was of the Plymouth Rock variety and was very plump.

Mrs. Grosche tied the fowl to a stake in the yard. Before night the chicken had deposited one egg to her credit. Mrs. Grosche thought this entitled the hen to a stay of execution, and refrained from having her killed. Since that day the hen has laid an egg each day, making a record of 98 eggs in ninety-eight and is still in the producing business.

## NOTES OF HAPPENINGS AT THE LOCAL Y. M. C. A.

On Friday night the Boy Scouts and the contestants in the recent swimming meet met for awarding of the ribbons and to close up the business matter preparatory to the coming of the new secretaries. The boys voted to make the Swimming Meets annual events and appointed a committee of boys to assist next year. This being the last meeting in which Mr. Smith would be their leader the boys had arranged a "surprise" for him. The ceremony included a short talk by Mr. Wilcox, who urged the boys to contest with their best efforts, both in their sports and in "Life's Swim," and Robert Friedman, representing the boys, made a happy little speech, telling in a boy's way how much they thought of him and the things he had brought to them. He then offered him a "package" containing a very fine purse and card case. Mr. Smith was surprised, but made the right response and the meeting closed with strong cheers for him.

Mr. Smith and family left this morning for Dayton, Ohio, to spend a two-weeks' vacation, from which he will return to take up his duties as Athletic Director and Teacher with the M. M. I. at Millersburg.

Mr. Chas. B. Harrison, the new General Secretary, arrived in town yesterday, and will immediately take up the work of familiarizing himself with the Association management. The Board is pleased to have secured a man with his training and experience, especially in the physical side of the Y. M. C. A. Mr. Harrison is a native of Kentucky, Lebanon being his birthplace. He is a graduate of Oberlin College, Ohio, also of the Y. M. C. A. Training College at Chicago. He has served the Ashland Y. M. C. A. and been in charge of the Physical Work in the Associations at Fargo, N. D., and St. Joseph, Mo.

He comes to the Bourbon County Y. M. C. A. from the Army Y. M. C. A. at Camp Zachary Taylor. At all of these places he has done excellent work, for which he has received much commendation. Because of his recommendations and his fitness to do a type of work that will meet the needs of Bourbon county the Association is looking forward to a strong aggressive program. The Directors bespeak the hearty interest in Mr. Harrison and are counting on his having those courtesies which will make him feel at home in his new location. Mrs. Harrison and their little daughter will come to Paris sometime in September. The Association has also signed up another secretary who will take Mr. Smith's place as Boys' Secretary. This is Corporal M. M. Sheffield, who has just returned from overseas. Mr. Sheffield is a young man, graduating from the Cedar Rapids, Iowa, College, just previous to his going into the army. He is a brother of Mr. W. W. Sheffield, the General Secretary of the Frankfort Y. M. C. A., is strong in his athletic and coaching work and has had some training in Y. M. C. A. physical work. He is attending the summer school of the Y

## EDITORIAL MUSINGS.

### Let's Have the Truth.

Possibly before the year is out  
there will be important contributions  
to the story of the causes that led up  
to the declaration of war in 1914. It  
is of the greatest value to the people  
of every nation that these additions  
to the sum of knowledge be  
made. The very recent and quite re-  
markable open letter of Prince Henry  
of Prussia, to his cousin, King  
George, of England, furnishes an in-  
stance in point.

Angered to the core by the pro-  
posed trial of his brother, the former  
Emperor, before an international  
tribunal, the Prince hotly suggests  
that other offenders against the  
world's peace be placed in the dock  
and be compelled to front the evi-  
dence taken from the old chancery  
which relates to the preparations  
of the conflict.

In warning to the English Sov-  
ereign he utters the reminder of the  
meetings held in Balmoral Castle  
with Sazonoff, the Russian Minister  
of Foreign Affairs, in 1912, at which  
there were discussions of the war and

the fate of the German merchant  
marine. If it is true that the German  
diplomats secured at Petrograd and  
Moscow, at the time of the overthrow  
of the Czar, the secrets of the Russian  
intrigues with other friendly  
nations for advantage, it is quite pos-  
sible that the Prussian Prince is in  
position to make some disclosures  
that will not sit agreeably on the  
stomachs of mankind in general.

No matter what the results may  
be, it is to the interest of the human  
race to have these dark secrets of  
diplomacy ventilated. It is without  
the material effects of the war, and  
is surely strong enough to receive  
without injury the facts concerning  
the bringing on of that mighty  
struggle.

The Country Town Belongs to the  
Country.

The country town is a part of the  
country. It is one of the encouraging  
signs of the times that country  
town business men are coming to re-  
alize this. It has not been so long  
ago that every little town thought  
that its business was to grow into a  
city just as soon as possible. Some  
town and many town people still  
think so. Many small town people,  
too, still think that their chief rela-  
tions and interests are with the cities  
rather than the country. The most  
far-seeing business men have come to  
know better. They are seeing more  
and more clearly that the town, the  
small city, is an integral part of the  
country, that it prospers only as the  
country prospers, and that it is its  
place in the scheme of things to be  
the life center of the country about  
it. The town merchant who opposes  
co-operative buying of selling by the  
farmers of his territory, the town  
banker who would hinder the estab-  
lishment of farm loan associations in  
his county, the town editor who neg-  
lects the interests of the back-coun-  
try districts, and becoming more and  
more out of date. Best of all, town  
folks are coming to see that they are  
out of date. Not until the country  
and the country town learn that they  
are yoke-fellows and must pull to-  
gether before either can make the  
progress it should. And both are  
learning.

## Coal Users, Play Safe!

"Buy coal now!" is the serious ad-  
vice of those in a position to know  
the present and future state of the  
market. No mistake can be made by  
playing safe and filling the home cel-  
lars and the factory bins.

Lack of railroad equipment, the  
emigration to Europe of hundreds of  
thousands of miners and other la-  
borers in the American coal fields,  
the larger demand because of the  
rehabilitation of industries, and other  
factors made certain the shrink-  
age of the supply of coal this winter.

Last winter was an exceptionally  
mild one, and it is indeed a hazard  
to think that the coming winter will  
be a repetition, and there was no  
plethora of coal a year ago. Even  
should the supply be beyond expecta-  
tion we are assured by experts that  
there will be no reduction of price  
four months hence. It is the part of  
wisdom to lay in a supply of coal  
now.

## JOHN FOX, JR., LEFT NEW NOVEL UNFINISHED.

John Fox, Jr., the famous writer  
of mountain novels, left a new novel  
only lacking the final chapter, ac-  
cording to his brother, Horace Fox,  
who arrived in Asheville, N. C., last  
week to testify in a case before the  
United States district court.

Mr. Fox stated that the book is  
now in the publishers' hands and  
that they will select some writer to  
write the unfinished chapter, which  
had been sketched by the late writer  
before his death. The brother of the  
famous author says that John Fox,  
Jr., suffered last fall from influenza  
and that he had apparently recov-  
ered when he was stricken with  
double pneumonia and died suddenly.  
The famous novelist was well known  
in Asheville, having been a frequent  
visitor there.

thousand people publicly thank Doan's.  
What other kidney remedy can  
give this proof of merit, honesty and  
truth? Home testimony must be  
true or it could not be published here.  
Read this Paris recommendation.  
Then insist on having Doan's. You  
will know what you are getting:

Philip M. Heller, prop. meat market,  
722 Main street, says: "I have used  
Doan's Kidney Pills a few times in  
the past and have been greatly  
benefited by them. At times my back  
was weak and lame and the kidney  
secretions passed too frequently,  
making me get up often at night. I  
have used a box of Doan's Kidney  
Pills at those times and they have  
always rid me of the complaint. I  
think they are a splendid medicine  
and gladly recommend them."

tions is that they resolve and then  
dissolve.

## CITY COUNCIL PROCEEDINGS.

The Improvement Committee, City  
Engineer and City Attorney were in-  
structed by the Paris City Council  
in its regular bi-monthly meeting  
Thursday night to draft an ordinance  
to submit a bond issue for an addi-  
tion to the sewerage system of the  
city and to report at the next meet-  
ing.

There has been a strong demand  
among residents in the suburbs for  
several years for an extension of the  
sewerage system to their neighbor-  
hoods and it was in just considera-  
tion of their needs that the Council voted  
to submit this issue to the public.

The final draft will be offered the  
Council on Thursday, August 28, and  
it is expected that the issue will be  
placed before the people in the early  
fall. If it passes, the sewer construction,  
under the supervision of the City  
Engineer, will be started in the near  
future.

The Council was unusually active  
Thursday and passed a number of  
bills which had been deferred for  
several weeks. In fact it was said  
by many to have been the busiest  
session conducted for many months.

A bill was introduced by Council-  
man Merringer to give the City At-  
torney proper authority to collect  
pledges made by the property owners  
abutting Duncan Avenue for the lay-  
ing of that street with Kentucky As-  
phalt. Some of the pledges, it was  
said, had never been paid. The  
measure was passed.

As a result of a recent act of the  
Council the police, firemen and the  
superintendent of street cleaning  
will now be paid twice a month.  
Hitherto they had received the  
pay in monthly installments.

Police Judge Ernest Martin made  
his report for the month of July and  
the report showed that the amount of  
fines imposed in his court was \$144  
and that the total collected was  
\$140.50.

Mr. Ralph Fields, of Lexington,  
was employed to act as speed traffic  
officer and he has been vested with  
the full authority of a member of  
the police force. He had been tem-  
porarily appointed by the Emergency  
Committee when a number of pro-  
tests on automobile speeding from  
citizens of the city had been filed with  
Mayor January. The council deemed  
that his work was satisfactory and  
that a permanent traffic officer was  
needed on the police force.

The Improvement Committee was  
authorized to purchase a car of road  
oil to give the street surface a coat-  
ing. As soon as the purchase has  
arrived the work of spreading the oil  
will begin. The Committee was also  
instructed to investigate what would  
be the cost of a storage tank, in  
which to hold a reserve supply of oil.  
They will report at the next meeting.

It was moved that the bond of  
Burke & Co., of Louisville, which  
firm was awarded the contract for  
the construction of the concrete  
streets, be accepted. The measure was  
passed and the work on the street  
will begin immediately.

Chief of Fire Police Swift McGold-  
rick was given permission to attend  
the convention of the National Fire  
men, which will be held in Louis-  
ville, September 10-12. Firemen  
from all over the United States will  
attend this meeting and modern ideas  
on the prevention of and fighting  
fires will be discussed. The city of  
Paris will pay Mr. McGoldrick's ex-  
pense while attending the conven-  
tion.

## BEWARE THE AFTERMATH

The people of the United States are  
rapidly coming to realize that the  
world's need for saving and economy  
did not end with the war. This con-  
tinued necessity for thrift is vigor-  
ously presented and emphasized in a  
pamphlet written by R. H. Brand, a  
British economist, and published by  
the British National War Savings  
Committee. In this pamphlet, called  
"The Financial and Economic Future,"  
Mr. Brand calls attention to the  
fictitious character of the apparent  
prosperity brought about by the war,  
and warns against the fallacious  
appearances of war time progress.

"We have been enjoying the tem-  
porary prosperity of a spendthrift  
speeding toward bankruptcy," he says.  
"We have been living easy be-  
cause we have been living on our  
capital. When we come to live on  
our income and not on our capital  
we shall find that the hard lessons of  
the past apply also to our own days,  
and that nations as well as individ-  
uals, can make good only by work  
and saving."

The burdens of saving to put the  
world on a safe financial and eco-  
nomic basis, Mr. Brand declares,  
must be shared according to the abil-  
ity of individuals to bear them, and  
the greatest sacrifices—measured at  
any rate in worldly wealth—must be  
made by the rich.

The United States Government an-  
ticipated this situation and inau-  
gurated a National Thrift Campaign  
during the war by placing Thrift  
Stamps and War Savings Stamps be-  
fore the public. These securities  
serve a dual purpose—give the Gov-  
ernment money for the reconstruc-  
tion period and erect a foundation  
for individual prosperity.

## U. S. TIRE MEN CAREFULLY TRAINED.

A conference of the service men of  
the United States Tire Company was  
held recently at the company's Hart-  
ford factory. The gathering included  
men from every State. The service  
men from that part of the company's  
staff which advises the consumer of  
the best means of getting the most  
miles out of his tires. The confer-  
ence was to acquaint the service  
men fully with the latest de-  
velopments in tire manufacture and the  
best means of avoiding tire trouble.

The idler and the slacker are of  
no use in this world to-day.

## KENTUCKY SCHOOL PUPILS PLAN BIG THRIFT CAMPAIGN

Foundation for a wonderful cam-  
paign that will carry the message of  
thrift into every home in Kentucky  
is being laid by the War Savings Or-  
ganization, under the direction of  
James B. Brown, of Louisville, who  
was appointed State Director for the  
Blue Grass State by Federal Director  
L. A. Wilson, of the Eighth Federal  
Reserve District.

The school is the instrument  
chosen through which to drive home  
the lessons of saving. During the  
vacation period the teachers institu-  
tives are held in every county. Each  
one of these institutes is attended by  
A. J. Jolly, in charge of the educational  
work in Kentucky, or one of his  
assistants, and the teachers are en-  
listed under the banner of Thrift.

Teachers are shown the advan-  
tages of saving. They are shown the  
vast advantages offered by the War  
Savings Stamp offered by the United  
States Government. They are in-  
structed in Thrift Stamp movement,  
whereby the pupils can invest their  
quarters and watch them grow into  
\$5 government bonds. The War Sav-  
ings Stamps, and the new issue of  
\$100 and \$1,000 Treasury Certifi-  
cates, with identical features of the  
smaller War Savings Stamps, are also  
detailed on.

In fact, each teacher is instructed,  
and in nearly every institute in  
Kentucky this summer, every teacher  
has signed a pledge card agreeing to  
devote a certain time to instruction in  
thrift and to organize a War Sav-  
ings Society in his room when "books  
take up" early in September.

Mr. Jolly in a recent visit to head-  
quarters at St. Louis, said the re-  
sponses of the Kentucky teachers  
had exceeded expectations and he  
was satisfied that more money would  
be saved by pupils during the next  
scholastic year than any other year in  
the history of Kentucky.

The Improvement Committee was  
authorized to purchase a car of road  
oil to give the street surface a coat-

### NATURAL CAUSES WILL EXHAUST BIG LIQUOR STOCKS

Eight million, two hundred and twenty-four thousand and sixteen gallons of whisky, which were in bonded warehouses of the Seventh district at noon Friday, will have gone to staves within sixteen years, according to Federal estimates which are made effective in the revenue act of February 24, 1919.

The old revenue law provided for a graduated leakage for a period of eighty months, beginning with one gallon for the first two months and a maximum of thirteen and a half gallons for six years and eight months. However, under that law whisky had to be removed within eight years and the tax paid.

#### Costa Rica Rich in Fruit.

Costa Rica has all the raw material that is necessary, except that for canners, to develop a profitable business in canned fruits and vegetables. The list of native and cultivated fruits is long and contains many which would be in demand if the way is found to preserve the flavor.

### TURN SOLDIERS INTO FARMERS

#### Army Schools in France Proving a Success.

#### FIND MEN EAGER TO STUDY

Eight Thousand Enrolled as Students in University Attached to Expeditionary Forces—Institution Occupies More Than 300 Structures—Abandoned Agricultural Schools in Occupied Germany Taken Over—Forty Studies Offered.

Over in east central France there is going on an American adventure in education of which very little has been said over here. A university has been established, with a college of agriculture and ten other colleges and a farm school. Two months ago it was an idea; today it has 8,000 enrolled students; more than 3,000 attend the school, while extension activities reach hundreds of thousands of men in one way or another. The university building is a former American hospital near the town of Beaume, in the famous vineyard district of Cote d'Or.

About the middle of March a host of young American soldiers came sweeping into the old hospital grounds from all parts of the expeditionary forces. They had packs on their backs, guns in their hands, gas masks and "tin" hats at their sides. They put on overalls, picked up hammers, saws, shovels and picks, and made things ready to go to school. They kept coming, so that now the university occupies more than 300 structures, which called for 800 carloads of material and equipment.

#### Idea Makes a Hit.

This was the work of the army education commission, in co-operation with the department of agriculture and various state colleges and universities.

The idea made a hit with the soldiers at once. Each week tens of thousands of them are in class or lecture rooms established throughout the army. The teaching staff from the home colleges found the men eager to talk about farming "back home," which was one of the objects of the experiment. They are satisfied by the interest displayed in the class and by the fact that more than 500 farmers' clubs have been organized, with a membership of fully 20,000 soldiers. One day a flying squadron of "city fellers" came over to the university to "get some agricultural dope." There was enjoyment of army pleasure at first, but in the end several of the visitors confessed themselves so interested that they, too, soon would be in the school.

In many units of the expeditionary forces farmer-soldiers have a chance to go to agricultural schools which maintain courses of six to twelve weeks and give instruction in several fundamental studies. They are called post and divisional schools. They are usually under the general supervision of representatives of the commission, although the principals and teachers are from the army. They are held in all sorts of places, wherever rooms and equipment can be found. In Germany abandoned agricultural schools in the occupied territory have been taken over. Even the land surrounding such schools has been made use of for practical work with crops, soil and gardens. Sometimes live stock is secured for judging, but usually the classes are taken to nearby farms for study and observation of the live stock found there.

#### Forty Studies Offered.

Forty different studies are offered the boys grouped in four general departments—animal husbandry, agronomy, horticulture and forestry and rural economics and sociology. In addition supporting subjects are offered at other colleges of the university.

In the first account of this American university to be received by the department of agriculture Prof. F. W. Beckman of Iowa State college says:

The immediate results of the educational program of the commission are worth while, but farseeing men expect even greater results in the future. Secretary Baker, in his address at the university, said he believed that out of the commission's work would come a permanent educational policy for the army, combining military training with training for the vocations and for civil life. Agriculturally the immediate results will be large, for the farmer-soldiers of the expeditionary forces are being stirred to a full realization of their opportunities and their obligations in the rural field. They are thinking as they never thought before about the rural tasks that await them back home, and they are likely to return better qualified to deal with them and with a new spirit toward them.

#### Ex-Kaiser Has Cut 5,000 Logs.

The former German emperor has completed sawing his five thousand tree. It was cut into one-inch disks, many of which have been distributed among his attendants and advisers. Each disk was marked by the sawyer with his initial and date.

#### U. S. Has 44,639 Officers in Reserve.

Since the armistice was signed on November 11, a total of 44,639 officers have been commissioned in the United States reserve corps. The majority of these saw active service and desire to keep in touch with military affairs.

## BOURBON'S ILLITERACY FUND GOES OVER THE TOP.

Contributions from Bourbon county toward the illiteracy fund have been received and the campaign has been closed.

Five hundred and thirty-six dollars and twenty-eight cents (\$536.28) was forwarded to the chairman, Miss Lloyd, last week. Thirty-six dollars and twenty-eight cents (\$36.28) more than our quota was raised.

North Middletown led in the work, contributing two hundred dollars (\$200.00) before the drive began.

Shawhan has sent in a contribution and Millersburg has completed the work, making altogether the amount of one hundred and four dollars and seventy-eight cents (\$104.78) more than we were asked to send.

The total amount sent from Bourbon county is six hundred and four dollars and seventy-eight cents (\$604.78).

The interest of the workers has been manifest by the continued work after our apportionment had been reached.

MRS. F. P. LOWRY,  
Chairman.

## AMERICAN LEGION TO BE FORMED HERE.

Mr. William Collins, of North Middletown, has been appointed Organization Chairman for the American Legion in Bourbon County and is now engaged in initial work toward the establishment of the Bourbon County Post of the new national association of soldiers, sailors and marines who served at home and abroad during the great war. A county organization committee is in process of formation.

One of the first steps to be taken by the local veterans will be the forwarding of an application for a charter to State Headquarters, 714 Inter-Southern Building, Louisville. On recommendation of the Kentucky organization, the charter will be issued directly from temporary national headquarters in New York. A mass-meeting in Paris at an early date is planned to make the Bourbon county membership 100 per cent. of the eligible veterans. Judge James P. Gregory, of Louisville, head of the State Speakers' Bureau, has agreed to provide a speaker for this meeting.

One hundred per cent. Americanism is the foremost aim of the American Legion. It is now engaged in a campaign to drive the alien slacker from the country. It has announced its purpose of taking part in national and local affairs in the belief that the ideals which carried its members to France should not be forsaken now that peace is at hand. However, it is free from partisan politics and is making an appeal to veterans everywhere to take an active part in its work in order that its ideals may be preserved.

## BOURBON FARMING CONDITIONS.

The long drouth which has prevailed in many sections of the county was broken by recent rains, and the late corn and tobacco have been greatly benefitted. Some hail and wind accompanied the rains, but no great damage of any consequence was caused. While considerable tobacco was planted early and got an early start the rains came too late. A part of the crop had to be cut and housed to prevent damage from the hot rays of the sun, but the larger portion of the crop being set late will now have a chance to grow out. The same is true of the late corn. The rains have revived the grass and there will be good growth for fall grazing. Late planted garden truck will also be benefitted by the rains. The prices of vegetables on the local market have already declined, showing the effects of the rains in bringing rapid growth. Farming conditions in the county are generally satisfactory.

## SPECIAL REGISTRATION TO BE HELD SEPT. 2.

Tuesday, Sept. 2, has been designated as a special registration day for those voters who did not register in time for the primary election, and who may desire to vote on the turnpike bond issue and road tax question on September 6. The registration will be held in the regular voting booths in each precinct in the county.

## NEW-COMER IN VETERINARY FIELD.

Dr. O. E. Wood, who has recently returned from service in the Veterinary Corps of the United States Army, has located in Paris for the practice of his profession. He has been practicing at his old home near Hutchison. Dr. Woods will have his office at the livery stable of Thos. G. Morris, on Main street.

## DRURY TO START BAKERY

Messrs. L. R. Drury and George W. Rhodes, of Lexington, has closed a contract with Mr. Martin Doyle, for a lease on the store room at 809 Main street, recently occupied by Higgins & Flanagan, to be used as a bakery. Mr. Drury is connected with the Drury bakery in Lexington. Preparations will go forward at once and the plant is expected to be ready for business in about sixty days. Mr. Rhodes will be general manager of the plant.

## INTERESTING OIL NOTES

On the Sol Lewis farm in Elliott county, the Bourbon Oil & Development Company has completed its initial well, which is reported to be making 15 barrels.

Pennsylvania parties, drilling near Olympia, Bath county, have struck oil and their initial well is credited with five barrels. Other wells will be sunk immediately in this section.

Announcement is made that the Co-Operative Oil & Development Company, of Paris, has made a contract with Winchester parties to drill on the W. R. Sparks tract of 54 acres in the Ashby section of Powell county. This property adjoins the Ashby, Miller, Prewitt, Golf and Baker tracts, all of which have produced considerable oil.

The Mt. Sterling Oil Exchange, which has been closed down during the summer months, will reopen for business September 1, and will be under its former management, Wm. French, operator, and Russell Cox, local manager.

The Paris exchanges will resume business at the same time.

The Little Banjo Oil Company, of Paris, which bought the Rice Oil Company's holdings in Elliott county, is rigging up a pump, pulling the tubing, and setting a tank near well No. 1, on the Vess Peters lease. The Company's initial well on the Fannin lease in Morgan county, at the head of Elk Fork, is now down 430 feet.

A 250-barrel well in Lee county and two 100-barrel wells in the Allen county pool were the features of the developments in the Kentucky oil fields, as reported Saturday. The big Lee county "gusher" was brought in by the Thraman Oil Company on the Anna Fisher tract in the Big Sinking territory and is the first well drilled in by this company on the Fisher lease.

The Little Banjo Company has purchased the Peters holdings in Elliott county on which a ten-barrel well was drilled in several months ago. The company has set up a pump, tanks, pipes, etc., and will clean out the well and thoroughly pump it to demonstrate what it will do. The well was drilled in the Berea sand and it is said has been flowing at intervals when shut in.

It is understood the Bourbon Oil & Gas Company will clean out and re-shoot the No. 1 well on the L. C. Pritchard lease near the Peters well in Elliott county. Operators have been assured that in the event one or two more good wells are drilled in that section a pipe line will be run from the Lawrence county fields to Elliott county. A number of rigs are reported working that territory now.

The Bourbon Oil & Development Co., of Paris, has brought in a twenty-five barrel well on the Lewis lease in Elliott county. This is their initial well, which was "shot" on that lease recently. It was necessary to pump off salt water before a thorough test could be given. The company will clean out and "shoot" its initial well on the L. C. Pritchard lease, which came in several weeks ago.

The McCombs Producing and Refining Company is drilling its initial well on the Incas lease two miles east of Airedale, in Lee county. This company has considerable acreage in this vicinity for which it is said from \$6 to \$7 an acre was paid. No. 10 of the Columbia Oil & Gas Company, on the E. S. Moore farm in Lee, is in, and is credited with 20 barrels. This company has a large number of stockholders in Paris and Bourbon county.

Mr. S. V. Brents, who recently resigned as secretary and treasurer of the Mutual Oil & Refining Company, and who was for a long time connected with the Bourbon Oil & Development Co., and the Co-operative Land & Development Company, of Paris, is forming a new oil company in connection with a number of Kentucky business men. The new company will have valuable leases and options on considerable acreage in various counties.

## TAXPAYERS ARE SLOW IN MAKING RETURNS.

Taxpayers of Bourbon county are not coming forward with their assessment lists as rapidly as they should, according to County Tax Commissioner Walter Clark and Deputy John J. Redmon.

The new law provides that the property-owners must appear at the County Tax Commissioner's office and give in a list of their property.

If they do not come in person and list their property for taxation, the Commissioners must do it for them. Messrs. Clark and Redmon are accommodating and efficient officials, but if a large percentage of the taxpayers wait until the last few days to file their lists, there will be such a crowd at the office that the work will be seriously delayed and the Commissioners hampered, in spite of all their efforts to expedite the work and keep the office going.

## IN THE SERVICE OF THEIR COUNTRY.

The American First Division, the first division to land in France and the captors of Cantigny, have begun leaving the Rhine for home.

The First Division, many members of which wear four service stripes, is bound for Camp Taylor, Ky., where it is expected the division will arrive in about a month.

A letter to his parents, Mr. and Mrs. F. S. Elder, of Paris, Lieut. Eugene V. Elder, who is stationed at Camp Vail, New Jersey, stated that he expects to receive his final discharge papers soon, and return home, possibly by the middle of next month. He has been assisting in the demobilization of overseas troops.

Award of the Victory medal to all officers and men who served in the navy during the war will be made in November, it was announced at the Navy Department. The medals will be distributed by the commanders of naval districts, commanding officers at naval recruiting stations and at the Navy Department. A silver lapel button will be issued for wear with civilian clothes.

Mr. Elmer Doty, son of Mr. and Mrs. James Doty, of Pleasant street, returned home Saturday from Hampton Roads, Virginia, where he received his honorable discharge from the service. Mr. Doty was a member of the Thirteenth Regiment, U. S. Marines, and had been in the service overseas with his company for several months.

Col. C. M. Best, of the Millersburg Military Institute, received a message stating that Richard Freas, a graduate of the M. M. I., had been drowned in the harbor at Brest, France, on July 23, while bathing. Young Freas was a brother of Capt. Howard Freas, a member of the M. M. I. faculty for seven years. This makes the fourth gold star to be added to the M. M. I. service flag.

Mr. Harvey Johnson, who has been overseas with the United States Marines, has returned home, having received his final discharge at Hampton Roads, Va. He was one of the several Bourbon county boys who volunteered in the service in the Marine Corps, when it became apparent that the Corps would be one of the first bodies of troops to be sent overseas. After a hard training period at Paris Island, South Carolina, he was sent overseas in September, but did not get on the firing line, although at one time he was on a detail which was under fire.

In order that members of the Barrow Unit, U. S. A. Base Hospital No. 40, many of whom have only recently returned from service with the A. E. F., may be able to meet each other readily during the Blue Grass Fair, arrangements have been made for a tent on the grounds by the Barrow Unit, composed of enlisted men of the organization.

During the Fair, on Sept. 5, the Club will meet at a banquet at the Phoenix Hotel at 7 o'clock in the evening and at that time it is proposed to form a permanent organization of members of the Lexington unit.

## INCENDIARIES FIRE BIG PLEASURVILLE TOBACCO HOUSE.

Fire, believed to have been of incendiary origin, completely destroyed the warehouse of the Equitable Tobacco Company at Pleasureville, four miles from Eminence, at 7 o'clock Sunday night.

This warehouse ranked next to size to the Big Burley Tobacco Warehouse, at Lexington, and contained approximately 175,000 pounds of tobacco, which was totally destroyed. The loss is estimated at \$35,000.

In addition to the warehouse and its contents a cottage owned by Squire T. Adams was destroyed by the blaze, with a loss placed at \$3,000.

## SUNDAY SCHOOL EXCURSION

The Baptist Church Sunday school will run an excursion to Frankfort and by boat up the Kentucky River on Wednesday, August 27, at \$1.00 for the children from six to twelve years, and \$1.50 for adults, round-trip, including boat trip. All intending to take the trip should take lunch with them. The return trip will be made leaving Frankfort at 5:00 p. m.

## BLUE GRASS FAIR TO BE BIG EVENT.

With opening day only two weeks off, Secretary Kenner Walker, of the Blue Grass Fair Association, predicted last week that record-breaking crowds would attend the six days' fair this year. Becoming specific, he said, the association would register a larger attendance on each day—Monday, Thursday and Saturday—than ever attended the Blue Grass Fair in one day.

As an inducement to the out-of-town persons who desire to go to Lexington during fair week, all railroad companies whose lines pass through Lexington have agreed to carry passengers to and from the city for one and one-half times the regular one-way fare.

One of the features of the Fair, according to Secretary Walker, will be the Rainbow Division Band and the feature of the band will be Tony Novak, tenor.

This vocalist had the distinction of singing with Elsie Janis when that famous musical comedy star was in France singing to the soldiers. Novak had the added distinction of singing before the peace conference at Versailles.

A special Labor Day program has been arranged for Monday, September 1. In the afternoon at 1 o'clock J. Campbell Cantrill, Congressman from the Seventh District, will deliver an address. The Rainbow Division Band will give two concerts, one in the afternoon and the other in the evening.

## MEETINGS ARE SUCCESSES

Farmers' Community Meetings were held at Maysville, Flemingsburg and Tolosa the week of the 18th of this month. Good crowds of thoroughly interested people are reported from all points. During the remainder of the season meetings will be held in the western portion of the State. Meetings are already scheduled for Daviess, Breckinridge, Meade, Union, Webster and Crittenden counties the week of the eighth.

## SUNDAY SCHOOL PICNIC

The Sunday School of St. Peter's Episcopal Church of Paris will have an outing and picnic dinner in the woodland of Col. E. F. Clay, on the Cynthiana pike, near Paris, Thursday, the weather permitting.

## AUTO SPEEDING REDUCED.

The vigilance of the Paris police, supplemented by the good work of Motorcycle Policeman Fields, in the enforcement of the traffic laws has had the effect of reducing automobile speeding over the streets of the city to a minimum. Few cars are seen running at nights now without the proper red rear-end lights. Occasionally some one is going to get caught and a fine in the Police Court will result. The speeders are learning that they must obey the law.

## ROAD SUPERVISOR DISCOVERS LIQUOR TREASURE TROVE

While exploring a small cave near Renick Station, on the Louisville & Nashville, Road Supervisor Shelton Irwin discovered seventeen quarts of bottled in bond whisky cached under a layer of rocks. It is thought that the liquor had been secreted there by bootleggers, who intended to remove it in small quantities at a time. Mr. Irwin notified the revenue and county authorities of his find, and is holding the wet goods in his possession, awaiting instructions as to its disposition.

## BOURBON CONFEDERATES GET NOTICE OF 17TH REUNION

Members of the John H. Morgan Camp, United Confederate Veterans, of Paris, have received official notice of the seventeenth annual reunion of "Morgan's Men," which will be held at Olympian Springs, on August 26, 27 and 28. The notices were sent out by Secretary Horace M. Taylor, of Carlisle. Deaths and removals have made serious inroads upon the ranks of the local veterans, but those who remain fondly hope to be able to join their former comrades in the annual reunion at Olympia.

## Y. W. C. A. GIRLS AT CAMP DANIEL BOONE.

The Young Women's Christian Association Camp at Camp Daniel Boone spent a most interesting and happy week. Eighty-five girls from Lexington, Louisville, Maysville, Cynthiana, Henderson, Flemingsburg, Paris and other cities have enjoyed the swimming, boating, hiking, camp-singing and out-door life of the camp. Each evening during the week vaudeville and stunt parties have been given by groups of girls for the entertainment of the other girls.

Miss Rebecca Averill, of Frankfort, and Miss Harriet Rogers, of Paris, were the camp athletic leaders and swimming instructors. Miss Sunshine Sweeney, and Miss Helen Hutchcraft, of Paris, have held interesting Bible classes each day during the week.

## EXPERTS GIVE OPINION ON TOBACCO CROP OUTLOOK.

Whether the burley tobacco will be large and of good quality depends entirely upon the weather from now on, according to statements by tobacco experts.

H. F. Hillenmeyer said if there is an average rainfall of one inch a week the rest of this month the yield will be larger than last year, although he estimates the price will decline from 10 to 12 cents a pound.

This year there is the largest tobacco acreage in the history of Central Kentucky, Mr. Hillenmeyer said. Most of the land has been devoted to wheat, corn and tobacco and of the last-named product there is an increased acreage of about 15 per cent above normal, he estimates.

Practically all tobacco growers planted their crop when the ground was wet and when the ground turned hot in June, much of the tobacco was burned in transplanting. There was hardly a field that did not have to be reset, Mr. Hillenmeyer stated. The early tobacco was damaged by the dry weather, but the late crop, with the exception of being irregular, is looking good and is growing rapidly.

John R. Humphrey, head of the Department of Markets, University of Kentucky, is of the opinion there will be a good price for the better grades this fall. He bases this opinion on the fact that the Eastern markets, although they opened low, have gradually risen until the average is about equal to last year.

The crop in North and South Carolina and Virginia is only about 60 per cent. of what was expected, according to Mr. Humphrey. He estimates there will be more discrimination in grades this season, with the good quality bringing high prices, and the poor grades selling very low.

## INDIAN SQUAW'S WISDOM

Out among the Pilchuck Indians in Washington, the thrifty habit has taken hold like a forest fire and the habits of wastefulness which are a tradition with the American Indian are rapidly being set aside for habits of thrift.

One of the most active boosters for thrift among this tribe is Pilchuck Julia, an aged squaw, who is looked upon by her people as a seeress of great wisdom. When Lula says "save," her worshipping followers know it is "good medicine," and forthwith move their moccasins to the local War Savings Stamp headquarters to buy Thrift and War Savings Stamps.

Recently Fred W. Graham, State Director of the National Thrift Campaign, journeyed to the Pilchuck reservation and decorated Julia with the "Order of the Thrifty." When the director pinned a gaudy War Savings Stamp button upon the aged seeress' coat, she smiled and said:

"Heap big snows are coming. Better save for the Great Cold."

And the braves and squaws who had assembled to witness the ceremony of decorating Julia nodded their heads solemnly in assent.

## U. S. WARNS MEXICO TO BE GOOD

WASHINGTON, August 18.—The first definite move toward the long expected change in policy in dealing with Mexico was disclosed last week.

Caranza has been warned that if the murders and outrages of Americans continue, the United States may be forced to adopt a radical change in its policy with regard to Mexico.

With the announcement at the State Department, however, came no authoritative indication of how far the American Government is preparing to go to enforce what lacks only the diplomatic technicalities of an ultimatum.

The Government announced its action by publishing an exchange of notes with Mexico City, and prefaced its official statement with the explanation that the diplomatic representatives referred to had been taken "in view of the long series of murders and outrages of American citizens in Mexico, culminating in the murder of Peter Catron in San Luis Potosi last month, and the perpetration of other acts in disregard of American lives and property."

The following note, the State Department announced, was presented to the Mexican Government by Charles Summerlin, of the American embassy:

The text of the American note was given out Thursday by the State Department without explanation of the delay in making it public. The department's statement follows:

"In view of the long series of murders and outrages of American citizens in Mexico, culminating in the murder of Peter Catron in San Luis Potosi last month, and the perpetration of other acts in disregard of American lives and property, the American embassy at Mexico City, July 22, by direction of the Secretary of State made the following representations to the Mexican Government:

"Mexico City, July 22, 1919.

"Sir: With reference to the embassy's note, dated July 16, 1919, relative to the murder of Peter Catron, near Valles, San Luis Potosi, on or about July 7 last, I have the honor to inform you that I am now under telegraphic instructions from my Government to urge upon the Mexican Government the capture and punishment of those responsible for this murder, and the adoption of adequate measures to prevent a recurrence of the murder of American citizens.

"I am also instructed to state that the lives of American citizens continue to remain unsafe and these murders are continued by reason of the unwillingness or inability of the Mexican Government to afford adequate protection, my Government may be forced to adopt a radical change in its policy with regard to Mexico. "Accept sir, the renewed assurance of my highest consideration.

"GEORGE T. SUMMERLIN,

"Charge d'affaires."

To this communication the Mexican Government returned a reply, dated July 28, signed by Salvador Diego-Fernandez, in charge of the Department of Foreign Relations.

The communication to Mexico is couched in probably the strongest language used in any from this Government since the exchanges preceding the Vera Cruz occupation.

All official Washington began at once looking behind the official texts seeking some reason for an impending change of policy, for which there has been demand in and out of Congress.

Pressure from foreign Governments and pressure in Congress which is preparing an investigation of the whole Mexican situation, were among those most commonly discussed.

Outwardly there was no reason apparent except the long and growing list of outrages on Americans.

## THE BEST PHYSIC.

When you want a pleasant physic try Chamberlain's Tablets. They are easy to take and mild and gentle in effect. They are highly prized by people who have become acquainted with their good qualities. They only cost a quarter.

## AN AMUSING ADVERTISEMENT

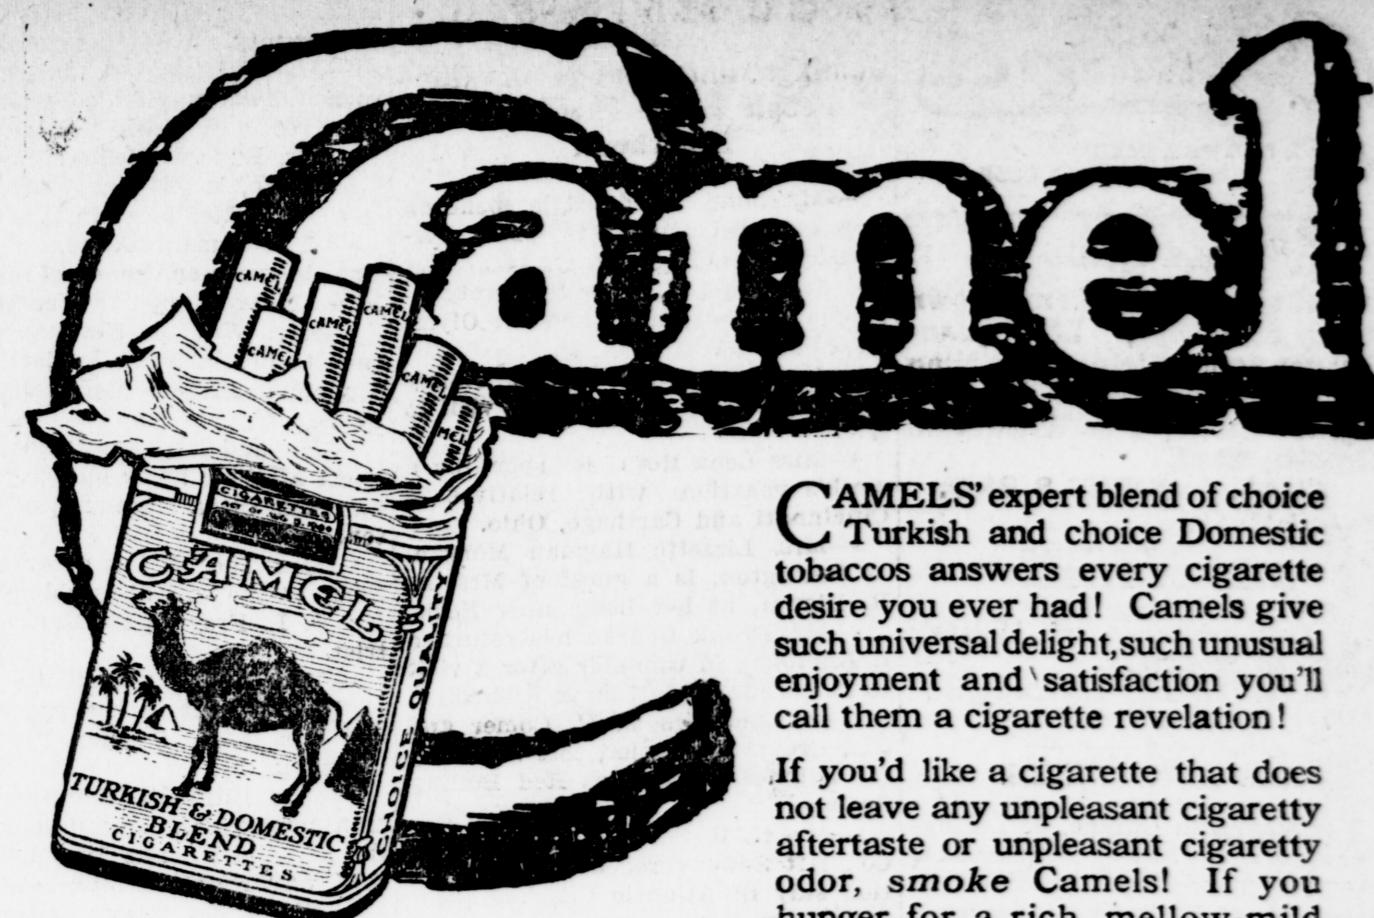

"FOR SALE—A good fruit and vegetable store; Ford truck and living room upstairs; good reasons for selling."

The above appeared in a recent issue of a Cincinnati newspaper. We have heard of Fords being kept in many places, but this is the first time we ever heard of one being kept upstairs in a residence. Thus, day by day, the advantages of this wonderful little machine become more and more evident. Whereas, one must build garages for other automobiles to keep them safe from thieves, this advertisement shows that one can take a "flivver" upstairs with him when the day's work is done, and put it under the bed with his shoes or throw it in a convenient corner, just as one does his trousers. Henry may not know any more history than other business men, but the "flivver" knows what it can do in the way of spending that night at home.

## ARMY WILL BE DEMOBILIZED BY OCTOBER.

Demobilization of the army "so far as combatant troops are concerned," will be completed the last of October, Secretary Baker announced recently. Many men now in the army, it was explained, will be retained to care for large stores of equipment remaining on hand.

Mr. Baker announced some time ago that the army would be reduced to the peacetime strength provided in the national defense act by September 30. At that time, however, there still will remain in the army a number of men enlisted for ten emergency. These will be released as rapidly as they can be replaced by volunteers.

## TIRE TAPE VERY USEFUL

Tire tape is to the automobile what a bandage is to a Red Cross nurse, and a man who drives a car would as soon think of leaving it out of his tool box as a Red Cross nurse would think of leaving a bandage out of her first-aid kit.

The United States Tire Company advises all its patrons to include a roll of its tape in their equipment. Its uses are innumerable. It is most frequently used to reinforce bad spots caused by blow-outs and punctures. It is also valuable for winding "leaky" electric wires or making temporary repairs to broken rods or rattling parts.

## DEMOCRATIC PLATFORM CONVENTION AT LOUISVILLE, SEPT. 4.

LOUISVILLE, KY., August 18.—Democrats of Kentucky will hold a platform convention in Louisville September 4. This was decided by a vote of 15 to 4 at a joint meeting of the Democratic State Central and Executive Committees at the Seelbach Thursday.

William F. Klair, of Lexington, made a determined effort to land the convention for that city. The three who voted with him were former United States Senator George B. Martin, Catlettsburg; Charles M. Harris, of Versailles, acting governor, and W. A. Young, of Morehead, whose proxy was held and voted by Senator Harris. The committee were a unit in naming Thomas S. Rhea, Russellville, campaign chairman, upon the recommendation of the Democratic nominees.

Fifty-four hundred Democrats will attend the convention as delegates the basis of representation agreed upon being one delegate to every fifty votes or fraction thereof cast for Woodrow Wilson in the last presidential election. Delegates will be named at mass conventions to be held in each of the one hundred legislative districts throughout the State, Saturday, August 30, at 2 p. m.

In what building the convention will be held was not disclosed, that being in the hands of the Louisville business men Louisville having agreed to furnish the hall, decorations and band. In all probability, however, the Armory will be pressed into service for the occasion.

That Edwin P. Morrow, Somerset, Republican nominee for Governor is not as strong now as he was four years ago, when he made the race for Governor against A. O. Stanley, was indicated by a statement made Thursday night by J. N. Meadows, Jamestown, member of the Democratic State Executive Committee from the Eleventh District. Mr. Meadows asserted that Mr. Morrow will receive from 2,000 to 3,000 votes less in the Eleventh District in November than he received four years ago. One reason for this, he said, is that Mr. Morrow opposed another term in Congress for Cabel Powers, asserting that if Powers were nominated again he, Morrow, would be defeated in his race for Governor.

Nearly all the Democratic nominees for state office attended the meeting of committee men Thursday and various planks for the Democratic platform were suggested.

John W. Newman, of Versailles, nominated for State Commissioner of Agriculture, made a number of suggestions, one of which, if adopted, would give the farmer representation on the State Tax Commission.

Another suggestion by Mr. Newman was that the Democrats, in their platform, declare in favor of increasing the tax for State purposes on intangible property, reducing the state tax on real estate in proportion. Intangible property is not taxed for municipal or county purposes, he pointed out and in lieu of this he thinks something should be added to intangibles for state purposes.

A third suggestion of Mr. Newman contemplated an amendment to the State Constitution whereby a Commissioner of Labor would be elected along with other State officers and through which the State Superintendent of Public Instruction and the State Commissioner of Agriculture would be enabled to succeed themselves in office.

The two officers should be free of politics, in the opinion of Mr. Newman. He said he would like to see aspirants to these offices voted for by Democrats and Republicans alike. His contention is that the State Superintendent of Public Instruction and the State Commissioner of Agriculture are just getting to a point where they can do their most effective work when the four-year term for which they are elected expires.

## AN OLD FAULT FINDER.

An irritable and fault finding disposition is often caused by indigestion. A man with good digestion and bowels that act regularly is usually good natured. When troubled with indigestion or constipation take Chamberlain's Tablets. They strengthen the stomach and enable it to perform its functions naturally. They also cause a gentle movement of the bowels.

## KEEP YOUR MONEY AT WORK

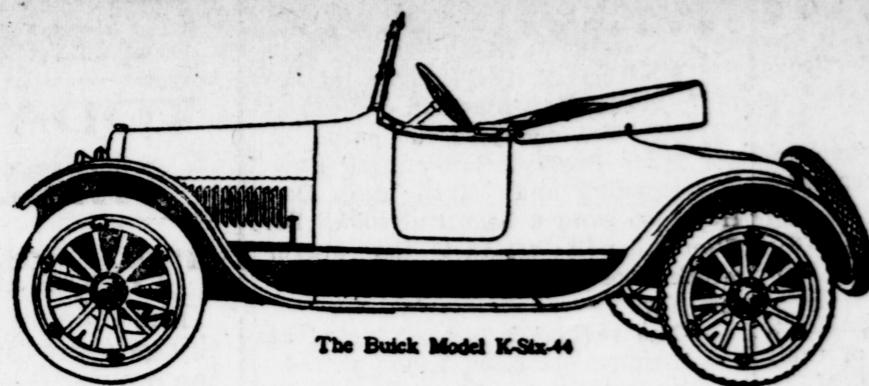

Bankers estimate there are still in Wyoming thousands of owners of Liberty Bonds to whom the Government owes money. In other words, there are a lot of people who have not yet clipped the interest coupons off their bonds and cashed them. They let the bonds lie untouched with interest money due, although if a neighbor owed them \$2.12 due on a certain date, they would be after it with a sharp stick. As each interest day comes more and more bond owners are turning their coupons into War Savings Stamps which pay another four per cent. compounded quarterly on the top of the bond interest.

## MOTHER'S SHOESTRINGS SAVED SOLDIER'S LIFE.

Bradley Graham, about 18 years old, of Albany, Ky., saved his own life while fighting in France. He was wounded by a shell just below the knee. He fell and while lying there thought of a bunch of shoestrings his mother had sent him. He took the shoestrings and corded his leg and took a stick and twisted the shoestrings so tight that it stopped the blood. Several hours afterward he was found by the stretcher-bearers. His leg was amputated and he is now going to school in Washington.

## Buick Three-Passenger Roadster

THE BUICK Model K-Six-44 possesses marked advantages for the man or woman who wishes a car of limited passenger capacity, with an exceptionally roomy and comfortable driving compartment. This three-passenger model makes the most of these desirable features, without sacrificing one whit of the modish appearance that belongs to the type.

The body is distinctly a Buick creation, broadening out to accommodate a wide, deep seat for three, then curving in at the back to form a trim rear deck with a weatherproof carrying space for luggage.

The dimensions of the driving compartment insure easy entrance or exit from either side, with the control and brake levers well forward but within easy reach. The French pleated upholstery is built for long wear and comfort.

Inclined windshield, handsome improved top of high grade material, side curtains that swing open with the doors.

## GOVERNMENT PUTS PUNCH IN H. C. OF L. CAMPAIGN.

WASHINGTON, Aug. 18.—Indications of the real punch behind the government's campaign to reduce the high cost of living were given in unmistakable fashion in many cities.

While Attorney General Palmer was telling the Senate Agricultural Committee that he intended to prosecute every dealer guilty of selling at higher prices than those listed by the fair price committees of each county, word came from Chicago, St. Louis and Birmingham of seizures of great quantities of foodstuffs by Federal officials, who recently were instructed to proceed under the Food Control Act to stop hoarding. In Chicago, 1,282 tubs of butter, worth \$50,000 were seized; in St. Louis, 284,180 pounds of coffee, which has been showing rapid advance in price, and in Birmingham 100 barrels of sugar.

—The funeral of Mr. Henry Patterson, who died at his home Thursday at 8:00 a. m., was conducted Sunday at 2:00 p. m., at the Methodist church, by his pastor, Rev. J. W. Gardner, assisted by Dr. C. C. Fisher. A large crowd was in attendance, and the services in every way were very appropriate. Mr. Patterson was one of the popular men of our community, and a zealous member of the Methodist church. He lived for his family and his church. There was nothing else in life that affected him so much. He was a friend of the preachers, and when a new minister came to town Mr. Patterson was always one of the first to greet him, and bid him welcome. He has done much for the Methodist church. Though quiet and unassuming, he was always in his place and always endeavoring to do something for the upbuilding of humanity. He will certainly be missed, and his place hard to fill in his church. The interment was in the Millersburg cemetery. A large concourse of people followed the remains to its last resting place, where they now repose beneath a bower of flowers.

## REAL ESTATE TRANSACTIONS

Mr. L. D. Harris, of Harris & Speakes, has purchased Col. George D. Speakes' one-fourth interest in a tract of land containing 80 1/2 acres, located five miles from Mt. Sterling, on the Grassley Lick pike.

Mr. Charles N. Peddicord purchased yesterday of Mrs. Lena Parker the cottage on South Main street, now occupied by I. F. McPheeters and family, for \$5,000. The property adjoins that now owned by Mr. Wm. H. Whaley, Jr. This is one of the most desirable homes in that section of Paris.

The old Christian church building at North Middletown, which was offered at public sale Saturday, was purchased by Mr. Davis Patrick, of North Middletown, for \$300. The benches in the old church were purchased by Mt. Sterling parties for \$246, and will be used in the Mt. Sterling court-house.

**HEROIC KENTUCKIAN'S ASHES TO BE REINTERRED IN FRANKFORT.**

After nearly twenty-five years of searching, the ashes of Persley O'Bannon, heroic Kentuckian, who is believed to have been the first American to plant an American flag in foreign soil—in Tripoli 114 years ago—have been exhumed and reinterred in the State Cemetery at Frankfort.

With appropriate exercises the Daughters of the American Revolution, Wednesday, took up the O'Bannon remains and they were buried again, suitably marked, at Frankfort.

Mrs. Martha Cochran, representing the Frankfort Chapter of the D. A. R., had charge of the ceremonies which took place in the little burial ground at Pleasureville, near New Castle.

O'Bannon was buried in the Pleasureville cemetery in 1850, according to the inscription, almost obliterated by time and the elements, found upon the small, plain slab marking his resting place.

It was at the ancient city of Derna, Tripoli, on the shores of the Mediterranean Sea, in 1805, near the close of the six-year war with Tripoli, that Capt. William Eaton, of Alexandria, Egypt, commanding a detachment of 500 men, among whom was O'Bannon, took the fortress.

There Capt. Eaton called for volunteers to plant the American and British flags, and O'Bannon was quickest of all those who responded, and got the commission, executing it, as history relates, successfully.

—Rev. Dr. E. L. Flanigan, of the Park Avenue Presbyterian church, at Norfolk, Va., occupied the pulpit at the Paris Presbyterian church Sunday morning and Miss Mary Dan Harbison sang a beautiful solo. Dr. Flanigan will conduct the prayer meeting service at the church to-morrow night.

—The revival being conducted at the historic old Cane Ridge church, on the Cane Ridge pike, near Paris, by Rev. W. P. Crouch, pastor of the Carlisle Christian church, came to a close Sunday night, with several additions. The meetings were attended by large crowds, and great interest was manifested in the services.

—At the Christian church Sunday morning Eld. W. E. Ellis delivered an impressive and forceful sermon on "Pressing Toward The Mark." At the union service held at the Presbyterian church Sunday night Rev. Ellis discoursed on the theme of "Character Building." Large and attentive audiences heard both discourses.

Captain Joyce, chaplain with the artillery detachment visiting Paris delivered a short sermon at the Catholic church Sunday morning. His remarks were eulogistic of the soldier and struck a responsive chord in the breasts of his audience. Captain Joyce was with the American Expeditionary Forces overseas for two years.

—The evangelistic campaign in the Little Rock Christian church was inaugurated Sunday. The pastor, Rev. Ward Russell, conducted the services and did the preaching. The music was rendered by a specially selected choir under the direction of Mr. A. L. Boatright, of the Paris Christian church. Services will be held each evening through the week, beginning promptly at eight o'clock.

## MATRIMONIAL

—A marriage license was issued yesterday morning from the office of County Clerk Pearce Paton, to Mr. Virgil Ramsey, 21, and Miss Nacie Teegarden, 21, both residents of Bracken county.

## ALLEN—LANTER.

Floyd Lanter, 26, and Miss Elizabeth Allen, 17, both of Bourbon county, secured a marriage license in Lexington, Saturday morning, and were married in the office of Magistrate Edward F. Miner. The groom is engaged in farming near Paris.

## FISHER—PERATT.

—Miss Ethel Veatch Fisher, youngest daughter of Mr. and Mrs. S. R. Fisher, of Carlisle, and Charles Oscar Peratt, son of Mr. and Mrs. J. H. Peratt, Sr., of Ewing, were married Friday afternoon at the home of the officiating minister, Rev. Frank M. Tinder, in North Middletown. After the ceremony Mr. and Mrs. Peratt returned to the home of the groom in Ewing.

## HANNA—THOMPSON.

—The marriage of Miss Lela Hanna, of Lexington, to Mr. William C. Thompson, of Owen county, was solemnized on Saturday afternoon at the home of the officiating minister, Rev. T. C. Ecton, in Lexington. Only two or three witnesses were present and after the ceremony the bride and bridegroom left for a trip. They will reside at Rockdale, Owen county, at the home of Mr. Thompson, who is a prosperous farmer.

The bride wore a traveling gown of blue serge and modish black hat. She is very handsome and attractive and widely popular, being one of Lexington's valued graduate nurses and a faithful worker in the Calvary Baptist church. Recently she has been in charge of the Trachoma Hospital at Greenville, Ky. Her parents are Mr. and Mrs. William Hanna, of Harrison county, and she is the sister of Mrs. Eldridge Snapp, of Paris, Mrs. Norcross, of Massachusetts, and Mrs. Albert Faulkner, of Lexington.

## CLOSE OF THE YEARLING SALES AT SARATOGA.

The closing sale of yearlings at Saratoga, New York, which has been in progress for several days, was well attended and the prices realized were very satisfactory. Twenty-five head were disposed of under the auctioneer's hammer, the star of the sale being the Uncle-Saratoga Bell colt, which was purchased by W. H. Karrick, for the top price of \$7,000. Mr. A. B. Hancock, of Paris, made the following purchases: Chestnut filly by Uncle—Helen Barbee, \$1,000; Chestnut filly by Uncle—La-Purcell, \$900.

## STOCK, CROP, ETC.

—A. S. Thompson & Son, of Paris, bought a choice Southdown yearling ram for \$120 from W. W. Noble, of Boston, Ohio. The animal was shipped to Mr. Thompson's farm near Allensville, Ala., to be used for breeding purposes. They recently sold four Southdown yearling rams for \$140 and five to W. D. Cowley, of Tennessee, for \$160.

## DEATHS

## WILSON

—Mr. Edward L. Wilson, aged sixty-six, died at his home on the old Coulthard's Mill pike, near Paris, at ten o'clock Sunday night, after a short illness. He is survived by his widow, Mrs. Parmelia Fryman Wilson, two daughters, Misses Nora and Verna Belle Wilson, and one brother, Mr. D. E. Wilson, of Hooktown, in Nicholas county.

The funeral will be held at the Mt. Pleasant church, in Harrison county, this (Tuesday) morning at eleven o'clock, with services conducted by Rev. Wm. Wright. The burial will follow in the Mt. Pleasant Cemetery.

## PICKRELL

—Mrs. Margaret Pickrell, aged seventy-nine, a former resident of Bourbon county, died recently at the home of her son, Dr. Ben Pickrell, in Spokane, Washington. Mrs. Pickrell moved from Bourbon county about forty years ago, and located in Springfield, Ill., where her husband was in charge of the publication of the American Shorthorn Herd Book. Mrs. Pickrell leaves three sons and three daughters.

Mrs. Pickrell was a sister of the late Mr. Ben. F. Bedford, of near Paris, and an aunt of Silas E. Bedford, Edward F. Bedford and Ben F. Bedford and Mrs. Nathan Bayless, all of Paris. The funeral and burial took place at Mechanicsburg, Iowa.

## HENRY

—Friends and relatives in this city received news of the death in Louisville last week of Capt. Hugh Henry, a former resident of this city, and a gallant ex-Confederate soldier, who served through the four years of the Civil War with distinction. Capt. Henry was in his seventy-eighth year at the time of his death, which occurred at the Confederate Home at Pewee Valley.

Capt. Henry was a native of this county, having been born near Little Rock, where his parents resided on a large farm. He received the rudiments of his early education in the county schools of his time, and came to Paris to reside. When the war came he enlisted in the Confederate service as a member of Co. H, Fourth Mounted Infantry, Orphan Brigade. When the captain of the company was killed in battle Henry was chosen by a vote of the members as his successor. This rank he held until the close of the war, when he returned to Paris to reside. He was in business here for a time, and some time after was made a member of the Paris police force, serving with the then Chief of Police James Merriam. In this capacity he made a faithful and fearless official, never hesitating to do his duty. He was a man of generous impulses and had a host of friends here who regret to learn of his passing away. During the larger part of their residence in Paris, Capt. Henry and family occupied a cottage at the corner of Pleasant and Eighth streets, the site of which is now occupied by the home of Mrs. John A. Schwartz.

Capt. Henry's wife preceded him to the grave many years ago. He is survived by two sons, Percy Henry and Frank Henry, both of Louisville. The funeral was held in the chapel at the Confederate Home at Pewee Valley, Thursday, with services conducted by the chaplain of the Home. The burial followed in Cave Hill Cemetery, in Louisville.
